

HQ-MEDIMIX MOBILE

POWDER AND LIQUID MIXER

DOSING SYSTEMS

With this mobile cart you are very flexible, the mobile dosing system can be used everywhere. The 60 liter tank with sloping bottom is specially designed to prevent wastage and residue of medication and/or liquids in your tank. For easy cleaning and emptying of the tank, there is a handy drain at the bottom of the tank. The trolley is made entirely of stainless steel material.

All HQ-Easymix and HQ-Solomix dosing pumps can be mounted on our mobile trolley.

Characteristics:

- ◆ 12V motor
- ◆ Barrel 60 litre capacity
- ◆ Stainless steel mixer & suction pipe
- ◆ Drain for cleaning and emptying
- ◆ Acid- and wear-resistant parts
- ◆ All models of dosing pumps can be connected
- ◆ Can be used anywhere by means of quick connectors
- ◆ Trolley, mixer and barrel also available separately
- ◆ Timer switch, allows the mixer to be switched off after a certain time
